**Organizational history:**

Created in 1972 at the request of grantmaking organizations around Michigan, CMF was formed to represent foundation interests with state and federal officials at a time when private philanthropy was under intense scrutiny by Congress, and in response to the 1969 Congressional hearings on private foundations.

Over its 35 year history, CMF has grown to become the nation's largest regional association of grantmakers, serving more than 350 organizational members - family foundations, corporate foundations and giving programs, independent and community foundations, and public charities of all sizes.
